

SeaAir Europe Training QS

Reference# 85503-10290L

SeaAir Europe Training QS - Quick Solution

This is a durable and ergonomic pilot and passenger training suit specifically designed to withstand chlorinated water and continuous use in repeated training. The suit fully replicates the actual pilot and helicopter passenger suits that are used in the UK and the Netherlands. The innovative Quick Solution (QS) enables the training center to quickly change cuffs. QS cuffs are made from latex. Our unique Quick Solution makes it easy to replace both neck and wrist cuffs, which in turn reduces both repair and service costs.

Facts

- Constructed for flexibility in use and in daily maintenance
- Outer shell in PU-coated Nylon Oxford – extremely durable
- Unique modular Quick Cuff & Neck Solution - exchangeable cuffs and neck seal reduce service cost
- Hood in thigh pocket
- Socks for flexibility with regard to choice of sizes
- Durable waterproof zip in PU (TIZIP Master Seal)
- Low-profile automatic exhaust-valves on shoulders
- Suit materials proven to last for years when used in chlorinated water
