

Ascotherm Mk I

Reference# 85601

Ascotherm Mk I - the original

Ascotherm is one of the most successful Thermal Protection Aids (TPA) on the market today. Designed to keep survivors warm and protected from rain, wind and cold in life rafts and lifeboats. This TPA is compatible with the IMO SOLAS Polar Code. All seams are welded and the material waterproof. The inside is metal coated to retain body heat. A certified lifejacket should always be used in combination with a TPA.

Facts

- Designed to keep survivors warm and protected against rain, wind and cold in liferafts and lifeboats
- Inside part of fabric is metallized (laminated) to retain body heat
- Web reinforcement allows unconscious survivors to be carried while wearing the TPA
- Without sleeves
- Long zip for easy donning. May accommodate a mother and small child
- All Ascotherm TPA's comply with the Marine Equipment Directive of the European Community 96/98/EC, and meets all the standards of the SOLAS 74/83, IMO Res. MSC 48 (66), IMO Res. MSC 81 (70), and MCS 226(82)
- A lifejacket should always be worn in conjunction with a Thermal Protective Aid (TPA)
- Packed in protective vacuum for storage, ensures functionality in emergency
