

SeaLion Euro Passenger CA EBS 275N

Reference# 83105

SeaLion Europe 275N Passenger with CA EBS

An advanced, well-equipped lifejacket for passengers in helicopters operating over open waters. This lifejacket is intended and certified for use with our SeaAir EBS compressed air emergency breathing system (EBS) that is purchased separately. The EBS is designed to make it possible to start breathing under water if the helicopter ditches. The lifejacket's minimum 275N buoyancy is activated manually for safe evacuation of a ditched helicopter.

Facts

- Minimum 300N buoyancy lifejacket
- Manually activated 60g CO₂ cylinder
- Prepared for integration of SeaAir CA EBS (Compressed Air EBS)
- Sprayhood, crotch strap, emergency light and whistle
- Stainless steel buckle safe attachment and quick adjustment to various body sizes
- MOLLE's on lifejacket cover for easy attachment of accessories
- Designed for adults (one size fits all)
- Please note: SeaAir CA EBS delivered separately
- Compatible with SeaAir integrated suits, SeaAir Europe Passenger and Pilot suits and SeaWind tripler approved suit
- Approved in accordance with EASA ETSO 2C504 and for integration with SeaAir EBS according to CAA-UK CAP 1034
