

Ocean Signal RescueMe PLB1

Reference# 13668

PLB1, the World's smallest Personal Locator Beacon

Wherever you are, at sea, on land, the rescueME PLB1 provides the reassurance that global emergency services can be alerted by the press of a button. The rescueMe PLB1 can be operated with a single hand in even the most challenging situations. A simple spring loaded flap covers the activation button preventing inadvertent use. The rescueME PLB1 can be provided with a buoyant pouch to fit the PLB into to enable it to float. Please note that the PLB will not float in a correct operating position in the pouch. Make sure to hold the antenna upwards. Please ensure the PLB is firmly attached to your lifejacket or immersion suit with the provided lanyard, using suitable self locking knots.

- 30% smaller (typ) by volume
- Easily fits in lifejacket
- 7 Year Battery Life
- 7 year warranty
- 24+ hour operational life
- 66 channel GPS receiver
- Waterproof to 15 meter

Make sure to register the unit by the relevant authority in your country:

For UK registrations go to: www.gov.uk/406beacon

For USA registrations go to:
www.beaconregistration.noaa.gov/

Programming fee for personal signal-combination may apply. This is a must-have in Norway.
