

## Quick Release Harness for SeaLife Rescue Pro 50

Reference# 82916

### Quick Release Harness

Quick Release Harness for SeaLife Rescue Pro 50. Replacement 50 mm whitewater chest harness with a Fixlock 350 quick-release buckle, stainless steel load spreader

- A) For general paddling and performing swimming rescues: thread the webbing through the plastic quick-release buckle only
- B) For bank-based rescues and belaying: thread the webbing through both the plastic buckle and metal back-bar to prevent the harness slipping under load
- C) Close the buckle firmly and store any excess webbing away. Check that the webbing is not twisted during threading

The chest harness is reversible, for left or right-handed operation

For fixing the position of the QR-buckle on our SeaLife Rescue Pro vest, please attach our spare part Molle Belt loops artno 22060

#### Facts

- Quick release belt with stainless steel D-ring (on the back)
- Quick-release buckle with anti-slip mechanism - releases easily when needed
- May be combined with cow-tail with two solid carabiners
