

Emergency light for suits Dan W4-3

Reference# 13607-KIT

Automatic Emergency light for suits and lifejackets, DAN W4-3

Daniamant Alkaline Lifejacket light is the new and environmental friendly concept in emergency lights.

The lifejacket light meets all the testing requirements of SOLAS and the Marine Equipment Directive. Using alkaline battery technology, - this new range will last for 60 hours - way in excess of the required 8 hours.

This is the automatic version, where the light activates automatically when in water and can be turned off manually if required.

The light is equipped with a practical bracket for easy mounting where appropriate on lifejacket or suit.

Alkaline batteries is environmentally friendly and may be transported (also by air) without special precautions. See our safety data sheet
