

SeaLion HP Rescue 275N Hammar

Reference# 83121-05990STD

A high-quality inflatable lifejacket designed for comfort and safety, and incorporates a new asymmetric bladder to ensure safe turning in rough sea. This lifejacket is designed for use by the rescue team of the Norwegian Society for Sea Rescue (NSSR). The lifejacket is equipped with D-rings both on the chest and back. The D-ring on the back allows attachment of the user with a safety line to perform salvage work in a safe position over the ships side. According to users, the lifejacket is very comfortable to wear over long periods of time. The lifejacket has neoprene around the neck and crotch straps for increased safety. It is a single chamber lifejacket with app 300N buoyancy and is certified in accordance with ISO 12402-2 (275N).

Hammar lifejacket Inflator

The Hammar Inflator activates automatically when submerged and a pressure difference of about 10 cm is reached. The Lifejacket will reach full buoyancy within seconds and it is designed to ensure fast and reliable activation even in the most extreme weather conditions

Features of the Hammar lifejacket Inflator:

- Protects against inadvertent activation: The Hammar Inflator is equipped with a hydrostatic valve that gives unique protection against inadvertent inflation in case of rain, spray, splash or humidity.
- A single point indicator clearly shows the status of the Hammar Inflator: When the single point indicator is green, the inflator is ready for use. After activation (automatic or manual) the indicator turns red and the inflator must be replaced. Always check the single point indicator before using the lifejacket.
- No service requirements for the Hammar Inflator for 5 years: Just ensure that the inflator is replaced after the five years expiry date or when the single point indicator is red.

Facts

- SeaLion Rescue is designed with focus on comfort.
- The life jacket is a single chamber 275N ISO 12402-2 approved lifejacket with new asymmetrical bladder, quick release buckle, two D-rings (front and back) for combination with optional safety line, mesh back for extra comfort and two crotch straps
- According to customers feedback, the lifejacket is one of the most comfortable lifejackets to wear over

time

- Very comfortable with neoprene neck
- Two crotch straps for increased safety
- Quick release buckle Two D-rings (front and back) for attachment of an optional safety line
- Automatic Hammar inflator
- Sheath for Eezycut knife on the waist belt (Note! The Eezy Cut knife is not included)
- Detachable reflector on the back
- MOLLE's on cover for easy placement of equipment such as radio ect.
- Black Cordura cover with mesh back
- Mesh back distributes stress over shoulders and back, - and gives breathability to the support system
- High quality lifejacket, made in EU
- In use by all personnel onboard vessels operated by NSSR, Norwegian Society for Sea Rescue

Product Detail

Lifejacket	<i>Lifejacket work SAR Rescue Services</i>
Type of PFD/class	<i>Inflatable lifejacket 275N</i>
Area of application	<i>Civil Service/ Rescue Services/ Armed Forces Multi-purpose</i>
Buoyancy	<i>Minimum 290N</i>
Material	<i>Cordura</i>
Adjustments	<i>Crotch Strap Waist belt max 140 cm - min 50 cm</i>
Fit / Ergonomics	<i>Ergonomic Long</i>
Colour	<i>990 Black</i>
Reflective material	<i>IMO Solas</i>
Pockets	<i>Pocket for personal items on cover</i>
Bladder construction	<i>Asymmetrical</i>
Firing mechanism	<i>Hydrostatic sensor, Hammar</i>
Whistle	<i>Yes</i>
Emergency light	<i>IMO Solas, water activated</i>
Inspection window for inflator	<i>Yes</i>
ID tag	<i>Yes, velcro</i>
Upholstery/Padding	<i>Soft neoprene in neck area</i>
Safety Harness	<i>Yes</i>
Buckle	<i>Special buckle in stainless steel, partly moulded in plastic</i>
Cover closure	<i>Zipper with Quick Burst functionality</i>
Compatibility	<i>Yes, ISO with ISO suit</i>
CO₂-cylinder(s)	<i>60g CO₂ (1 pc)</i>
Service interval (standard)	<i>1 year</i>
Certifications ISO	<i>ISO 12402-2 Lifejackets for extreme offshore conditions (275N)/ISO 12401 Safety Harness and line</i>
Crotch strap	<i>Double</i>
Equipment	<i>D-ring on back for attachment of cow-tail or safety line (ISO 12401) D-ring on chest for attachment of safety line (ISO 12401)</i>

Certificates

ISO 12402-2
