

1000S Training Immersion Suit

Reference# 83301

Built to survive repeated use, this reproduction immersion suit was designed in collaboration with offshore training providers and supports an authentic operational experience. Two material options allow providers to precisely meet budget demands and operational needs.

Compatible with Halo Training Lifejacket

Facts

- Accurate S1000 series reproduction ensures effective training
- Neoprene neck and wrist seals ease donning, avoid damage and eliminate leaks
- Hardwearing PU-Nylon material option is low cost and fast-drying for rapid trainee turnaround
- Tri-laminate material option is breathable for comfort and authentic feel
- Choice of seal types, including user-replaceable modular system to save time and cost
- Articulated sleeves with air-expulsion valves ease aircraft exit and improve safety in water
- Simplified 8-size range cuts trainer's stock requirement and costs
- Choice of plastic or metal waterproof zips offer flexibility and durability choices
