

SeaRescue III Telescopic

Reference# 85513-10990M

SeaRescue III Telescopic

This super slim suit is designed for demanding operations within rescue services and first responders/special forces in the military and police.

The suit is a result of year-long development process and testing in partnership with users in the target groups mentioned above.

Facts

- Based on HP's unique basic design for the best possible freedom of movement
- The construction has now been taken a step further with a narrower basic pattern to avoid excess fabric around your body
- To further improve freedom of movement, one has been added a telescope solution in the waist. This solution provides improved freedom of movement, and also unique flexibility in terms of sizes. A Medium size suit fits both a person of 175cm height and a person of 195cm.
- The telescopic solution is adjusted to fit your height with the internal elastic braces.
- In addition to the standard HP Superlight material, the suit may be manufactured in alternative fabrics, e.g. HP Aramid/GoreTex Nomex III according to customer spec's and requirements *
- As standard delivered with fixed neck seal in neoprene. Latex option is available as also HP's highly comfortable adjustable neck seal *
- Diagonal/X-don main entry zipper
- Relief zipper
- Astra patches on the chest for attachment of e.g. ID
- Unique seat construction without seams eliminates wear points and improves mobility
- SOLAS approved 1 hr <5°C water temperature
- ISO 15027-approved 1 hr <5°C or 2 hrs <10°C water temperature
- Should be used with compatible SOLAS- or ISO-lifejacket according to user area
