

Northern Diver Seahawk

Reference# 100833

Great all-round protection. Suitable for white water and swift water rescue. The shell drops below the ear for extra protection and helmet stability. The split-mould injection process creates a very rigid shell and an ergonomic "negative draft" shape that follows the natural curves of the head, protecting the forehead and base of the cranium. Twist lock adjustment for easy adjustment to your size.

- To fit Head Size : 55cm – 62cm
- Available in yellow
- ABS plastic shell
- ABS plastic extends to ears
- Adjustable side release buckle on chin strap
- Twist lock adjustment
- Lightweight
- Certification: EN 1385:2012
- With purchase of minimum 200 pcs print of logo/text can be included, and a choice of the following helmet colours: red, yellow, orange, black and white
