

Halo Training Lifejacket

Reference# 83296

Halo Training Lifejacket

The Halo training lifejacket has been developed to meet a market demand for lifejackets capable of withstanding the repetitive rigours of training programmes. Based on customer feedback from leading OPITO approved training providers, this training option is an authentic reproduction of the Halo aviation lifejacket.

To accommodate the frequent opening and closing of the lifejacket cover, the zip has been modified to a QBZ YKK. This is further protected by a panel secured in place with a popper and Velcro straps for longevity. The cover material has been changed from Nomex, chosen operationally for its high quality heat and flame resistant properties, to a hardwearing and quick dry 300D Polyester.

In addition, the lifejacket also incorporates a modified inflation bladder with a “fake” secondary inflation mechanism. This simulates the operation of the actual Halo system, but reduces rearming costs and simplifies the repacking process in the training environment. The removal of items with an expiry date, such as strobe and lifejacket lights, further simplifies maintenance for the training provider.

Facts

- Training reproduction of halo lifejacket designed
- Simplified maintenance
- QBZ YKK with poppered closure for longevity
- Ergonomic Fusion 3D design hi-vis beaded inflation toggles
- Unique bladder distribution for enhanced in-water performance
- Sculpted bladder profile for improved in-water
- Mobility to aid self rescue
- Halo hood system for improved airway protection
- Slimline quick lock buckle & waist adjusters to provide easy donning

Product Detail

Lifejacket	<i>Helicopter</i>
Type of PFD/class	<i>Inflatable lifejacket 275N</i>
Area of application	<i>Maritime Training</i>
Buoyancy	<i>Minimum 275N</i>
Adjustments	<i>Waist - both sides</i>
Fit / Ergonomics	<i>Fusion 3D Design</i>
Reflective material	<i>IMO Solas</i>
Bladder construction	<i>Symmetrical with chin support</i>
Operating head	<i>Manual, UML Micro</i>
Sprayhood	<i>Yes</i>
Lifting becket/loop	<i>Yes. double</i>
Whistle	<i>Yes</i>
Buckle	<i>Plastic buckle with quick release functionality</i>
Cover closure	<i>Zipper with Quick Burst functionality</i>
CO₂-cylinder(s)	<i>60g CO₂ (1 pc)</i>
Service interval (standard)	<i>When needed</i>
Certifications ETSO	<i>Tested iaw ETSO-requirements for HUET-training (no formal certification)</i>
Weight	<i>2,20 kg single chamber/2,55 kg double chamber</i>
Crotch strap	<i>Double detachable</i>
Inflatable bladder	<i>Single</i>
