

SeaWind II Reference# 85541-11300L

SeaWind II - flexible and ergonomic

A comfortable and lightweight suit for tough and demanding environments. Designed with focus on ergonomics, light weight and comfort - without compromise. SeaWind is certified by both SOLAS, ISO and EASA. As such it certified for almost every conceivable situation. No other work/survival suit is designed for such a wide a range of uses as SeaWind.

The suit is certified for continuous wear, work, shipping and helicopter passenger transfers. To comply with helicopter transport certification, the suit must have the lining fitted and be used with a compatible ETSO-approved lifejacket. SeaWind is the first choice for many professional groups, not least for demanding work in connection with the service and maintenance of wind turbines.

For helicopter transport, the suit is compatible with Crewsaver Halo Pax lifejacket.
