

Jotron Tron SA20 PLB

Reference# 13572

Tron SA20 PLB Safety Alert Personal Locator Beacon

Tron SA20 PLB has a global emergency alert coverage. This PLB can be used in worldwide offshore (maritime) and onshore (land based) applications. Tron SA20 PLB has a rugged and compact design, and is one of the smallest 406MHz lifesaving devices on the market. For use in water, the maximum depth is 1 meter for 1 hour.

Tron SA20 PLB is a 406MHz Cospas-Sarsat approved personal emergency device which is developed and designed in accordance with the latest PLB standards.

Facts

- 11 year battery lifetime 406/121.5 MHz
