

NRS Co-Pilot Knife

Reference# 100836

Co-Pilot Knife

The Pilot Knife now has a little brother - the NRS Co-Pilot. Great features - smooth and serrated cutting edges, blunt safety tip, bottle opener, etc. Compact design is a fine fit on your PFD. An excellent knife for freshwater boating and rescue. For saltwater use, choose the NRS Titanium Co-Pilot Knife. For all of your cutting needs the Co-Pilot has both super-sharp smooth and serrated sections. The blunt tip design protects against unintentional puncture of your gear or yourself. As another safety feature, the blade is only sharpened on the one edge. This, along with the blunt tip, helps prevent injury in a tight rescue situation. The unique sheath firmly locks the knife in place and only lets it go when you squeeze both sides of the release. The comfortable rubberized grip wraps around the contoured handle, giving you maximum control of the blade. The sheath clip attaches firmly to a PFD lash tab. Also included in the handle are a bottle opener and an oxygen tank valve wrench.

Facts

- Blade Material: 420 HC Stainless Steel
 - Handle Material: Glass-reinforced polypropylene with TPR over-mold
 - Sheath Material: Fiberglass-reinforced nylon
 - Total Length: 14,6cm
 - Blade Length: 5,7cm
 - Weight: 130g
 - Blade Edge: Smooth and serrated
 - Blade Tip: Blunt
-
- Matte finish
 - Squared hole in handle serves as a valve wrench for an oxygen tank
 - Bottle opener in handle
