

SeaAir Europe Training

Reference# 85507-10300L

SeaAir Europe Training

This is an extremely durable and ergonomic pilot and passenger training suit specifically designed to withstand chlorinated water and continuous use in repeated training. The suit fully replicates the actual pilot and helicopter passenger suits that are used in the UK and the Netherlands. The training suit is specially equipped with integral socks to reduce the number of variants needed to be kept in stock at the training center.

Facts

- Constructed for flexibility in use and in daily maintenance
- Outer shell in PU-coated Nylon Oxford – extremely durable
- With permanently attached neck seal and sleeve cuffs in neoprene
- Hood in thigh pocket
- Durable waterproof zip in PU (TIZIP Master Seal)
- Low-profile automatic exhaust-valves on shoulders
- The suit is equipped with socks - reduce necessary variants in pool of suits
- Suit materials proven to last for years when used in chlorinated water
