

HBB Slip Stopper

Reference# 100838-L

Slip Stopper spike soles are easy to put on and works well with drysuit boots. Each sole have ten spikes strategically placed for maximum grip. Slip Stopper is well adapted for use with drysuit on ice. The spikes are mounted on an elastic rubber sole that stays elastic even at low temperatures. The spikes have a blunt tip to avoid damage to RIB tenders etc. Slip Stopper meets EU requirements and is CE approved and is type-approved according to 89/686 / EEC by the Finnish Institute of Occupational Health (FIOH).

- Easy and easy to take on and off
- 10 strategically placed spikes on each sole
- Suitable for use on ice in combination with dry suit
- Elastic material also at low temperatures
- Available in sizes: S, M, L, XL

Instructions

1. Attach the sole in front of the shoe
2. Pull the sole back around the heel
3. Make sure the stitches end up in the middle of the foot in front and back
4. Remove from boots before you go indoors
